To Whom It May Concern

Re: FuelMag® Distribution in India, Bangladesh and Sri Lanka

In recent months several new developments has spurred the restructuring of the FuelMag ® operations. To accommodate OEM demands in the fuel supply, aviation and road transport markets, we made several changes to our organisational structure. The key changes is a new parent company, Purefuel Technologies Ltd that now owns all the product IP rights and also a new manufacturing facility, based in the United Kingdom, that will allow us improve manufacturing and implement new ISO standards above and beyond existing product certification. Purefuel Technologies Ltd owns the FUELMAG ®; Fuel Mag® and ECOFUELKLEANZ™ brands in Europe, Australia, New Zealand, United States of America and India with new patents new in New Zealand and Europe.

These changes also required our agents to commit to the same standards of service and to achieve this we have appointment of **Hindusthan Electric House as the sole Agent for FuelMag® Product range for India, Bangladesh and Sri-Lanka**, manufactured by Purefuel Technologies Ltd with effect from the 1st April 2008.

For any future enquiries including purchase and warranty issues, please do not hesitate to contact Mr. Sanjay Maroo, Hindusthan Electric House at info@hehindia.com or on +91 8912560150 regarding the FuelMag® products and technology or any corporate or warranty issues please feel free to contact myself at ian.roos@fuelmag.co.uk or on +44 1206 756830

Best Regards

Ian Roos

Operations Director
Purefuel Technologies Ltd.
