

Kalyan Construction

Fuel Mag testimonial from Kalyan Construction Ltd. (Hyderabad).

To Whomsoever It May Concern

We are pleased to inform that Fuel Mag - Total Diesel Protection being distributed by M/s ENTECH (Hyderabad) was recently installed on trial basis on the following machinery at our site in Penamanna near Tadepalligudem (Andhra Pradesh)

1. 1 Nos - Leyland 6 Tyre Comet Tipper.
2. 1 Nos - Leyland 10 Tyre Comet Tipper.
3. 1 Nos - JCB 3D Excavator cum Loader.
4. 1 Nos - Ingersoll Rand Road Roller.
5. 2 Nos - Caterpillar Graders.

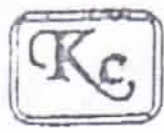

Prior to installing Fuel Mag, the following problems were being encountered on our machinery

- a) Frequent filter plugging.
- b) Power loss.
- c) Sluggish engine response
- d) Sludge accumulation in fuel tank
- e) Rust formation in fuel tank
- f) Excessive black smoke.

The following improvements were noted on the above machinery after installation of Fuel Mag as reported by our Site - in - Charge Mr. Srinivas

- ✓ Enhancement of filter life, filters are remaining clear for extended periods, saving on replacement costs as well as downtime.
- ✓ Increase in pick up & enhanced engine performance.
- ✓ Power loss has been substantially reduced, engines are running very smoothly.
- ✓ Reduction in engine vibration & noise.
- ✓ Decrease in black smoke emission.
- ✓ Breakdown of sludge in fuel tank.
- ✓ Rust particles in diesel were caught in Fuel Mag housing.

Fuel economy has not been checked due to machinery operating under varying conditions & condition of Fuel Injection Pump will be observed and reported within 6 months.

Kalyan Constructions

BUILDERS' ASSOCIATION OF INDIA

Based on these observations, we have decided to install Fuel Mag on all our machineries & vehicles as our operators, drivers & mechanics are extremely satisfied with the results & savings on downtime & maintenance

We highly recommend installation of Fuel Mag to all owners & operators of diesel machinery & vehicles for improved engine performance.
